

# SEVEN HIGH RUSS OFFICERS ON TRIAL FOR LIFE

## DEATH CERTAIN AS ALL PLEAD THEIR GUILT

### Trial is in Camera and No Right of Appeal is Accorded

MOSCOW, June 11—Seven of the highest officers of the Soviet army will go on trial for their lives today. A government announcement was issued early today saying they were charged with treason.

Heading the list of accused was Marshal Michael Nikolaevich Tukhachevsky, vice commissar of war until just a month ago. Among the others are General Ivan Konev, chief of staff of the Soviet Stalin in Leningrad. This provides for summary action against enemies of the revolution.

**HEAED IN CAMERA**

The trial will be held behind closed doors. Conviction will mean they will be sent almost immediately to death, unless they can gain the right of appeal.

The trial will be held according to an order issued by the Soviet Loyal Body, the court martial, on December 18, 1946, immediately after the assassination of Sergei Kirov, chief of staff of the Soviet Stalin in Leningrad. This provides for summary action against enemies of the revolution.

**FULLY GUILTY**

A communiqué said all the accused had pleaded guilty. The trials are considered to mean they can gain the right of appeal.

One of the officers, General Ivanov, was accused of being a traitor in London, but the others were imprisoned only since the last few days.

Seven were important commandants until Wednesday, when they were displaced in sweeping changes in the Red Army.

**They are accused of treason in the fatherland, the people and the army, and of being traitors of allegiance to the army and traitors to the revolution, with an unswerving loyalty to the government.**

It was believed this last referred to Germany or Japan. General Nikolai Tukhachevsky, chief of the Soviet Red Army and until May 11 Vice Commissar of War, was accused.

**GENERAL K. V. PUTINA**, former military attaché in London, arrested in August, 1936.

**GENERAL V. M. GOREV**, commander of the Frontline Military Academy, the "West" Front of the Soviet Army.

**GENERAL I. E. YAKOV**, dismissed June 9 as commander of the Leningrad district гарнизон.

**GENERAL V. V. KOROVICH**, removed June 9 as commander of White Russia.

**GENERAL R. P. EDE**, former head of the important Omskashikham, organization for training reserves and civilian training in the Soviet Union.

**GENERAL B. M. FELDMAN**, chief of the personnel section of the Soviet Red Army.

**GENERAL V. M. PRIMAKOFF**.

**Erin To Vote On New Constitution**

**EDMONTON, June 11**—The Irish Free State will vote on a new constitution on President Sean De Valera's proposed constitution, which does not provide for the independence of the state. The Dail parliament was told today. Election will be July 1 to 2. De Valera said.

"He did not anything tainted with vindictiveness and inisted these should not be the roots of hatred and antagonism provocative of future conflict."

"He did not want to be forced to its own," he said. "He settled affairs after the war no nation had a more upright and more courageous than the courageous statesman."

**CARRIED WEIGHT**

"He carried great weight with leaders to abandon the march, the Pontiac local of the M.W.A., which claims 19,000 members."

**PLANT CLOSED**

"The 'holiday' already had been declared by the Canadian government and the Imperial war cabinet not merely because he was prime minister of the day but because he had been a great leader."

"He was a man who would be missed it will be in many countries outside the Empire."

"His service in years of war and peace, in office and in opposition, strengthened the best traditions of life," the Prime Minister declared.

**U.S. Newsman**

**Laud Sir Robert**

**NEW YORK, June 10**—To almost unanimous outburst of obituary on Sir Robert Borden in his new column, the New York Times added an editorial today, praising "the great man" and his "splendid courage" of Canada's older statesmen.

#### TELL THE MAJOR

The Calgary board of trade wants the Premier to "work for better business conditions" and never mind about trying to adjust debts. The first half of the advice is good, the second bad.

But the whole point of counsel is for the time off-side, because the Government has been pretty plainly told it won't work at anything until Major Franklin gets his job back and power to initiate was transferred from the cabinet to the Social Credit Board, seemingly with no discernible bounds to the area in which the latter is supposed to function.

The legislature has completely out business, and power to the Ministers to do the same, pending instructions from the oracle in Tree Court.

How can the Government work for better business conditions, or any other desirable object, when it has no right to initiate? And since the budget is let alone part? All the Ministers are at liberty to work in their tongues, and if they work those too freely they are bound to get trouble.

The Calgary board should address its advice to Major Douglas. He probably wouldn't pay any attention to it, but the cabinet can't until he says so.

SIR ROBERT BORDEN

The Canadian people will sincerely regret the passing of Sir Robert Borden, and the capital of the nation will surely sympathize with his family and friends in their expressions of grief and appreciation of his services. Though at his advanced age the announcement could bring no shock of surprise, he was a citizen of the type Canada can ill afford to lose.

Sir Robert Borden was a man physically and mentally. He was a stalwart Canadian in the full sense of the term. He had staying power, and showed it in the three roles he played on the stage of politics: Minister, Senator, and family, he has gone east.

the true measure of M. Blum's success and the vindication of his policies.

But the Popular Front is still on trial. It still has not rounded out to completion the ambitious idealism of its social program. Labor has been granted little in the way of rights and power, and little in the echelon of industrial strife indicate all is not yet well between worker and master. The despotism of unprincipled finance, though checked, continues its pretensions as France's only available outlet.

In foreign affairs, M. Blum's most encouraging achievement has been a purely negative one. Not even the defection of his Communist supporters made him quit his position of honorable neutrality in the Spanish struggle. But all that has been done in the name of the advocate of disarmament, the champion of injured justice and determined friend of peace, to lead Europe once again into those paths of ordered security that can be found only by policies of impartial liberty.

ONLY \$8,000,000

Hon. J. H. Illey, acting minister of finance, has given out information that loans amounting to \$8,000,000 have been taken out in all Canada to put up houses under the Dominion housing act since 1930. As far as I can see, nowhere in the Dominion since 1930, "only" is the word which should precede the figures. Eight millions for loans under the housing plan would be a small figure even if there were no arrangement for loans.

By provinces the amounts loaned are as follows: Prince Edward Island, \$37,164; Nova Scotia, \$77,509; New Brunswick, \$397,759; Quebec, \$3,082,306; Ontario, \$3,689,142; Manitoba, \$1,964; Saskatchewan, \$2,200; Alberta; none; British Columbia, \$26,050.

Alberta holds the distinction of being the one province in which not a single loan has been made under the scheme. If that distinction was as marked as it sounds, blame may be laid on the fiscal policies of the Provincial Government.

The Alberta government has been in power since 1930, and power to initiate was transferred from the cabinet to the Social Credit Board, seemingly with no discernible bounds to the area in which the latter is supposed to function.

The legislature has completely out business, and power to the Ministers to do the same, pending instructions from the oracle in Tree Court.

How can the Government work for better business conditions, or any other desirable object, when it has no right to initiate? And since the budget is let alone part? All the Ministers are at liberty to work in their tongues, and if they work those too freely they are bound to get trouble.

The Calgary board should address its advice to Major Douglas. He probably wouldn't pay any attention to it, but the cabinet can't until he says so.

Senator Schultz is favorably mentioned as successor to Lieut.-Gen. Aiken.

Austria and other Central European powers do not seem to be ready to accept the Anti-Turkish intervention.

Eggs are down to 20¢ a dozen.

W. Lloyd has rented the Hotel du Canada from St. Jean.

Sir Donald Smith has been elected president of the Bank of Montreal.

The name of Bancriff has been changed to Rocky Mountain park by the Senate.

Claps are to be granted to the men actually engaged in First Creek and Batoche in '85.

Mr. Lester, construction contractor at Calgary, and family, have gone east.

### FORTY YEARS AGO

A balloon which sailed over the town Thursday night with bright lights caused quite a lot of alarm. The war was over, and already here were signs of a new era. The world was over the direction of the Canadian branch of a great banking concern, at an age when most men would have sought ease in retirement and the enjoyment of the ample means that had come to him.

For 40 years he had a man for the field of politics that he did in the days when he headed a small, quarrelsome and doubtfully loyal group in opposition to the Laurier Government.

As war Premier his resolution never faltered, and if he ever had a doubt of the outcome the country never knew it.

Done with war, the war over, and already here were signs of a new era. The world was over the direction of the Canadian branch of a great banking concern, at an age when most men would have sought ease in retirement and the enjoyment of the ample means that had come to him.

More than a few are still too few. They are the kind that make a country great.

### ANOTHER "SURVEY"

The legislature is to be asked to investigate the public accounts committee to the public works department, and the public works department to the public works committee," according to report. Hon. W. A. Fellowes greeted the news with words of welcome: "They can turn the searchlight of publicity on me, if they like."

The Minister evidently regards the public accounts committee as the public regard II—an inglorious body only to be called into action when it is suspected there is skullduggery needed to be exposed. That is the reason the committee, started for the fact that the committee seldom does anything except when there is "scandal" in the air.

As a matter of routine practice the committee should meet early and often at the expense of the legislature. Not because there is always rascality to unearth but because there would never be much rascality if it were known that the committee was continuously on the job and that it was to be expected that it would be generous, but we cannot afford then or now to be weak or omit any single guarantee of justice and security."

Ottawa: The gallant men in the House of Commons today were crowded to hear Sir Robert Borden introduce the new military service bill.

THE RIVER LIFE

The more the river life the more appear

the dangers of drowning.

A day to childhood seems a year,

And years like passing ages.

The gladness current of our youth,

Are passion yet disorders,

Stoic, lingering like a river smooth

Along its greasy borders.

But as the courageous cheek grows wan,

And sorrow's sweat flies thicker,

Ye stars, that measure life to man,

Why seem your courses quicker?

When joys have lost their bloom and breath

And life itself is rapid,

Why, as we reach the Falls of Death,

Feel we its tide more rapid?

It may be strange—yet who would change

Time's course to slower speed,

When one by our own friends have gone

And left our bosom's bleeding?

Heaven gives our sense of fading strength

Identifying fitness;

And those of youth, a seeming length,

Proportioned to their sweetness.

MONDAY—Breakfast: Melted toast; steamed prunes; Lunch: Strawberries and cream; Dinner: "Salisbury" steak; baked grated turnips and carrots; salad of lettuce leaves; gravy.

TUESDAY—Breakfast: Cottage cheese; pippin; Lunch: Spinach, raw celery and ripe olives. Dinner: Roast pork; mashed turnips and carrots; salad of sliced onions on lettuce leaves; gravy.

WEDNESDAY—Breakfast: Coddled eggs; Melba toast; steamed prunes. Lunch: Ice cream (1/2 pint portions) with a fresh fruit. Dinner: Left-over pork; squash; cooked green beans; baked salad of tomatoes; cucumber; no dinner.

This will give it an entirely different flavor when the fat is left out. Press the ground meat into a dry cake pan to a depth of about one inch, place in oven and turn over five times. It will cook through in about five minutes. A tasty gravy may be made by grinding spinach or parsley with the meat.

SALISBURY STEAK: This steak is prepared by grinding through a meat grinder only the red lean part of round steak from which all gristle and fat have been removed. This may seem similar to "Hamburg" but it is really more tender and more flavorful. It is made by cutting the meat into small pieces, adding a little salt and pepper, and then adding a little flour. This will give it an entirely different flavor when the fat is left out. Press the ground meat into a dry cake pan to a depth of about one inch, place in oven and turn over five times. It will cook through in about five minutes. A tasty gravy may be made by grinding spinach or parsley with the meat.

SATURDAY—Breakfast: Whole-wheat muffins; peanut butter; steamed raisins. Lunch: All desired of any kind of fresh fruit, as cherries, cantaloupe, or berries. Dinner: Roast veal; asparagus; string beans; salad of grated raw carrots.

FRIDAY—Breakfast: French toast; Melba toast; apple sauce. Lunch: Corn (canned or fresh); summer squash; ceviche (salad); Dinner: Broiled filet of sole; spinach; salad of cucumber and tomato.

## How To Regain Pep After A Busy Day

**Play Suits**  
Include Long Beach Robes

A beach and play robe of heavy printed cotton that looks like linen cloth is a play with a white floral design. The white and red berries are scattered. The sleeves make shoulders look nice and square.

Cut on housewife lines with slim bodice and swirling skirt, this lovely beach robe is a type of garment that fashionables like to wear. It's short and bright. It's made of heavy cotton with red and white pomponies sparingly scattered on a navy background.

**Fashioned of Fabrics That Are Washable**

A white terry cloth beach robe, which washes like a bath robe, and does not have to be treated at all. It is made of a soft cloth of red, green and blue and a slide fastener down the front. Notice the circular girdle, trim hose, short puffed sleeves, upstanding collar.

A girl can't always look and feel as fresh and alluring as a spring violet. Not after working all day—especially when she has to do it for either remuneration is likely to make her appear worn and fatigued by the end of the day—and in no condition to use her wiles on Friend Husband or any other friend.

It is a good thing, therefore, for her to know how to stage a proper comeback when the wear and tear of a day's labors have left her fatigued and looking pretty much "done in."

So today's girl is very busy reviving and making one feel good as new. First you must do the physical. All clothes must be removed, and a loose garment or robe should be put on. Then the body must be thoroughly cleaned with a good cold cream, and a very thin film of nourishing cream applied to the skin around the eyes and mouth.

Next, a good face mask should be applied to the face. While the mask is drying, a restful nap should be taken. This nap should last for about half an hour so that the mask has sufficient time to thoroughly dry, and do its magical work of drawing the skin together and toning up the skin.

When the mask has thoroughly dried warm bath salts should be taken to complete the work of reviving. Make it a perfect bath by all means, and relax completely in the warm, fragrant water. It will stimulate your circulation, soothe your nerves, and set your body tingling with health.

Follow this bath with a cool shower or plunge, and finish with a warm, dry towel. Then remove the mask from your face with a soft cloth and apply a good cold cream as astringent. The transformation in your appearance that will result from this treatment will be most useful of evenings, secure in the knowledge that you are looking your best and most charming.

a lass who needs rejuvenating treatments.

mask should be made of a square of crepe cloth, have holes in it for the eyes, nostrils and mouth. The skin should first be cleaned with a good cleansing cream, and after this is removed a nourishing cream should be applied. The mask should be permitted to remain on the skin for a few minutes, and then removed.

Next, take the prepared cheesecloth mask, dip it into warm milk, and apply it to the face, letting it come into contact with your skin. Then take a smooth slice of almond meal and rub it over the face. Then the cheesecloth mask. Permit this to dry, then remove it. If off the face with the cheesecloth mask, then bathe the skin again with warm milk, then dry the skin thoroughly and apply astringent lotion in order to close the pores and tone up the skin.

### ANSWERS TO QUESTIONS

**Superfluous Hair**  
Esther: The superfluous hair which you refer to is composed of two teams of persimmon and half a teaspoon of ordinary household ammonia.

**COMPOSITION**  
Edgar: I think that a soft peach blossom perfume with light lipsticks and dark brown eye-shadows would blend harmoniously with your coloring.

## Fort Craig Races Home Longest Long Shot in 'Peg Meet

# CANADIAN LEGION RANKS STRENGTHENED BOWLER SAYS

## Dominion Secretary Shows 100 Per Cent Membership Increase

During the past seven years membership in the Canadian Legion has increased by over 100 per cent, with branches and commands showing a corresponding increase, according to J. E. Bowler, Dominion secretary of the Legion, when addressing members of the Edmonton branch on Thursday evening. In 1920, stated Mr. Bowler, the number of Legion branches in Canada was 700; today there were 1,500, all active and steadily increasing.

Mr. Bowler, a graduate in Lehighbridge to the annual convention of the Legion in the same city, spoke on the expenses in the southern city on Monday morning.

### WORK OUTLINED

In the course of a short address Mr. Bowler outlined the work done by the Legion in obtaining pension compensation for the disabled, and also told of the aims of the Legion for the welfare of the men in the ex-service ranks.

Unemployment, he stated, was the major problem facing the Legion command at present, and although there had been little action to date he was confident that the recommendations of the Edmonton convention, the only one convened in Canada, would bring about a solution, but rather because a permanent solution had not been forthcoming.

### DEFINITE ACTIONS

He told the meeting the government had acknowledged the principle of unemployment insurance for the near future to ease economic and unemployment difficulties which were the main cause of the present depression. The government, he said, was doing all it could to help the men in the ex-service ranks, but rather because the situation was too desperate. He expected action within a very short time.

Concluding his address Mr. Bowler advised the members of the Legion to exert every effort to keep the ex-service men of the district from the Canadian Legion, and to encourage them to join the ranks of the Legion.

### Heads Lions

The local Lions Club is well known to Edmonton citizens for its work in the field of youth. ### Famous Players Corp. Appeal to Alberta Assessment Commission

Seeking a stay in the action building assessment rates imposed by the city on the Empire theatre, the Montreal Trust through Famous Players Canadian Corporation Ltd., lessees, appealed to the Alberta Assessment Commission Friday for a lower valuation on the Empire theatre, 103 street. District Assessment Commission, composed of A. A. Carter, chairman, assisted by J. A. McLean.

The assessment on the theatre was reduced from \$82,000 to \$60,000 in 1926. Assessors said the theatre was built in 1920 at a cost of \$80,000 to \$90,000. In 1926 it was estimated it had a value of \$100,000, or 25 per cent of present values. Worth of the building as it now stands was assessed at \$60,000. The lessees argued the valuation should be less than \$60,000.

### LAND VALUE

Land values were also assessed, but the amount was not disclosed.

Referring to the proposal that the value of the premises be enhanced by installing movie projectors without seats, Mr. McLean said the basis of the tax on the theatre is away from the main streets. It was also claimed that the lessees had a larger tax-free viewpoint of the possible revenue from movies.

The Montreal Trust leases the theatre to Famous Players at a fee of \$2,000 a year, plus taxes with an additional \$1,000 for advertising.

**GARIBOLDI OBJECTS**

Representing the city, Guy Solon, former皇帝, opposed the proposal, contending that the tax on the theatre was an unfair valuation for the city, while city assessors for the city, Mr. Thomas Walker, is also giving veto.

Hearings of the commissioners are continuing. William Martin, attorney for the city, and Mr. Thomas Walker, attorney for the city, while city assessors for the city, Mr. Thomas Walker, is also giving veto.

# TODAY'S MARKETS

## At Toronto

TORONTO, June 11.—Toronto market failed to work up steam today and base metals ended mixed. Heavy A. & C. Power was rated industrial, western oil took narrow losses. Walkers completed 4% and closed around 48 for a narrow net gain. Some programs ended close to a point and others were dropped an early tail.

Metals were up slightly except for Montreal Power, United Pot and B. C. Power. A few units of fractions, mainly common, added a fraction.

## At Montreal

MONTREAL, June 11.—Prices drifted lower on the stocks market today with trading slightly lighter.

Smelters posted a loss of 1% at 78, with some units of fractions and down a point each. Holman dropped to 11.

## At New York

NEW YORK, June 11.—Substantial gains were registered from the stock market with the exception of the market, which camped the courage of trading circ.

With growing strikes putting metals on production in independent steel centers, and walkouts threatened elsewhere, the market was in a state of suspense for losses of fractions to 3 or more points.
